700 U\$D for foreign Participants

Program overview:

The success of a performance management system depends on the continual examination of standards, measures, reporting, and quality improvement efforts, successful performance management does not have an end point. Rather, as illustrated, maintenance and upkeep are required to keep the system running well and to ensure that performance management efforts remain consistent with shifting organizational priorities and needs. By continuously examining existing performance management systems using QI tools such as the Plan-Do-Check-Act cycle (PDCA), the system can be updated to reflect organizational changes. In this course, participant will learn measure and improve the performance of their departments, units and organizations using quality improvement tools.

For whom:

This course is designed for Directors, Heads, and Managers of Public Sectors Departments: Ministries and Agencies. Also, Analysts, Evaluators and Program developers, Planners in Federal States and Local Government organizations will benefit from this program. All senior and supervisory officers with responsibility for performance management in Ministries and Agencies will equally benefit from this program.

Learning objectives:

After this 5-day training, participants will return to their offices with complete set of tools to apply performance measurement to the following areas of their businesses:

- strategic business planning;
- operational planning;
- budget development decisions;
- employee performance appraisal;
- program advocacy; and
- ongoing project & program evaluation
