Workshop fee: N300, 000 per Participant

For online: Delivery via Zoom

Online course fee: N250, 000 per Participant

Available for In-plant Training

**700 U\$D for foreign
Participants**

Program Overview:

Security incident investigation is just a part of a holistic security response program and management process. The overall process begins when the security team is alerted to a breach or compromise in the security of a system. Once the malicious activity has been identified, the security team will investigate the incident to determine the scope of the incident and formulate a containment and remediation strategy that attempts to minimize the damage. A successful incident investigation uncovers the root causes that led to an infiltration of the network by nefarious means. More importantly, incident investigations can help security teams devise effective processes to prevent future attacks.

For Whom:

This course is suitable for security managers/supervisors and personnel, company investigators, human resource professionals, site managers, safety and incident response team members, business owners, and anyone involved in incident management and investigations.

Learning Objectives:

At the end of the program, participants will be able to:

- explain and apply the principles of Incident Management to their workplace;
- apply Incident management methodology and create a plan to recover the business quickly from a threat or incident;
- explain the basic fundamentals of an investigation;
- demonstrate how to conduct a basic internal investigation within their organization; and
- conduct a complete crime scene preservation investigation from start to finish.
