Participants**

Program overview:

Contract administration is the process of managing contract creation, execution and analysis to maximize operational and financial performance at an organization, all while reducing financial risk. Organizations encounter an ever-increasing amount of pressure to reduce costs and improve company performance. Contract management proves to be a very time-consuming element of business. When a contract is phrased poorly, an organization might lose countless millions of naira over a simple technicality they lacked the resources to identify. Effective contract management can ultimately create a powerful business relationship and pave the road to greater profitability over the long-term, but only when managed correctly, this facilitates the need for effective contract management professionals and system. This is the focus of this program.

For whom:

Contract Administrators/Managers in corporations, businesses, labor organizations, governmental agencies contacting Officers, and other procurement specialists wanting more and in-depth training on advanced administration of contracts

Learning objectives:

At the end of the program, participants will be able to:

- negotiate contract terms with outside vendors;
- draft appropriate contracts and amendments;
- interpret contract provisions critically;
- recognize unique requirements, characteristics, and issues that arise in different contract settings; manage relationships with contractors in accordance with organizational policies and procedures;
- monitor performance of contracts against performance indicators to ensure all obligations under agreements are met;
- ensure that obligations to contractors are met in accordance with contractual agreements; and
- apply standard service contracts for routine services.
